

ABDUL MOHAIMEN

Sr. Software Engineer & Team Lead

📞 017986549099 ✉️ mohaimen707@gmail.com [🌐 LinkedIn](#) [🐙 Github](#) 📍 Dhaka, Bangladesh

SUMMARY

Experienced Software Developer with 6+ years of hands-on experience in both frontend(4.5yr+) and backend development. Currently serving as **Lead Frontend Developer** at Jatri, where build scalable B2B/B2C platforms and lead an agile team of engineers. Proven track record of delivering high-performance digital products, with a strong focus on UX, maintainability, and collaboration within cross-functional teams. Experienced in React.js, Next.js, and modern frontend architecture.

PROFESSIONAL EXPERIENCE

Sr. Software Engineer & Frontend Team Lead

📅 Jan 2023 - Present 📍 Dhaka, Bangladesh

[Jatri Services Limited](#) | [Saafir](#)

- **Led** a team of 6 frontend developers while actively contributing hands-on development.
- Architected and developed core frontend features alongside team management responsibilities.
- Defined and enforced frontend best practices, including performance benchmarks and code review standards.
- Oversaw end-to-end project execution, including planning, task allocation, sprint management, team coordination, and critical decision-making.
- Collaborated closely with Product, UI/UX, QA and Backend team to bridge technical gaps and deliver seamless user experiences.
- Mentored junior developers on complex technical challenges and modern frontend best practices.
- Oversaw **sprint planning, task allocation**, and end-to-end project execution.

Software Engineer L3 (Frontend)

📅 Jan 2022 - Jan 2023 📍 Dhaka, Bangladesh

[Jatri Services Limited](#)

- Spearheaded development of:
 - Online Ticketing Platform (B2C), ntercity Transport System (B2B) – Admin, Operator, Seller, and Agent panels, Water Transport System (B2B) – Admin, Operator, and Seller dashboards
- Optimized the ticketing experience and improved user performance by 40% through refactoring and redesigning the legacy codebase.
- Took ownership of feature development, refactoring, and bug fixing, contributing to cleaner, more scalable, and maintainable codebases.
- Built and maintained reusable components, significantly reducing development time and increasing consistency across applications.

Software Engineer (Fullstack)

📅 Dec 2019 - Dec 2021 📍 Uttara, Dhaka

[Namespace IT](#)

- Built and maintained full-stack web applications using Laravel, Next.js, React.js, and Angular.
- Designed responsive UI components
- Integrated payment gateways (Stripe, SSLCommerz)
- Collaborated directly with clients to gather business requirements and translated them into effective, scalable technical solutions
- Identified and fixed critical bugs, Led debugging efforts to quickly resolve complex issues
